

ScriptableObject

Base.IUpdatable

Model.Feature.Sun

```
graph BT; MS[Model.Feature.Sun] --> SO[ScriptableObject]; MS --> BIU[Base.IUpdatable];
```

The diagram illustrates a class hierarchy where the `Model.Feature.Sun` class inherits from both the `ScriptableObject` class and the `Base.IUpdatable` interface. The inheritance is represented by arrows pointing from the child class to its parents.
